

## RBC Credit Cards – International Transactions

Effective January 9, 2017, a limit will be applied to credit card transactions originating outside of Trinidad & Tobago (including online purchases) for both Personal and Business Banking accounts. The sum of your international transactions during any 30 day period will be limited to the equivalent of \$120,000 TTD. In-country transactions are not impacted.

In cases where you may need to conduct foreign transactions at or beyond this limit, we will work to provide you with the solutions and advice that will help in achieving your financial goals.

As a responsible company, we will continue to look for approaches that are considered and measured, to ensure equity for all our clients as we manage the current challenges.
