Security and safety is a priority

Security is always top of mind, especially for businesses with high-dollar and high-volume banking transactions. For your peace of mind, RBC Express Mobile keeps data private and secure at all times. No financial data are stored on your mobile device. In addition, this app shares many of the same security measures of RBC Express Online including:

- Optional “two factor” authentication for sign-in and approval
- The same permissions and limits as RBC Express Online
- Industry-standard encryption

Become more efficient

RBC Express Mobile is an intuitive app that brings the robust and flexible features of RBC Express Online into the palm of your hand. This business banking solution helps you:

- Securely delegate banking and financial responsibilities to multiple users
- Increase productivity
- Protect against fraud internally and externally

Getting started is easy

In order to use RBC Express Mobile, you will need:

- To be an RBC Express Online user
- To be permitted to have mobile access by your RBC Express Administrator
- To have a supported Android, Apple or BlackBerry device
- To visit the app store appropriate for your device and download the RBC Express Mobile app

Payment and transfer approvals are quick and easy with RBC Express Mobile — authorized approvers benefit from an at-a-glance view of outstanding items they need to approve as well as an exclusive in-app indicator, which acts as a reminder so these items are never forgotten.

RBC Express always reflects the latest advances in technology and provides a reliable backup for disaster recovery. RBC Express Mobile is a dependable and secure alternative when on-the-go access is required.
