* This list was compiled as of August 2016 and is a sampling of participating merchants operating in Canada, based on RBC Visa purchase data as of October 2015, who are classified by Visa by the following Merchant Category Codes (“MCC”): (i) service stations (MCC 5541) or automated fuel dispensers (MCC5542) for “Gas Purchases”; (ii) grocery stores and supermarkets (MCC 5411) for “Grocery Purchases”; and (iii) drug stores and pharmacies (MCC 5912) for “Drug Store Purchases” (“Eligible MCCs”). This is not an exhaustive list of merchants operating in Canada that are classified with Eligible MCCs. In addition, other merchants may acquire an Eligible MCC and/or some may be removed from the Eligible MCC list of merchants

from time to time, without notice. Even though some merchants may sell gas, grocery, and drug store merchandise, purchases made at these locations may not necessarily qualify as an Eligible MCC if the merchant is not classified as such by Visa. Also, you may make a purchase at a merchant that is not classified as an Eligible MCC but is located on the premises of a merchant that is classified as an Eligible MCC, in which case your purchase would not qualify as an Eligible MCC. We cannot guarantee that any merchant, operating in whole or in part as a gas, grocery or drug store, is classified as an Eligible MCC and in no event will we be liable or responsible for any claims with respect to a gas, grocery or drug store purchase made at a merchant that is not classified as an Eligible MCC. Royal Bank does not endorse any of the merchants listed or their products/services and the merchants listed do not endorse Royal Bank or its products/services.
